TWELFTH YEAR.

EARLINGTON, HOPKINS COUNTY, KENTUCKY, THURSDAY, FEBRUARY 21, 1901.

NO. 8

DYNAMITE USED.

Non-union Miner's Home Attacked at Midnight and Fired Into.

AT THE PROVIDENCE MINES.

Officers Working on Cues That Promise Well.

Providence, Ky., Feb. 19.—More violence has been attempted on non-union miners at the mines of the Providence Coal Company.

About midnight last night a party of men visited a large boarding-house near the mine of that company, placed dynamite on the porch and fired it. The explosion partially demolished the building and terrified the occupants. After shooting the dynamite the party fired several shots from revolvers into the house and ran away.

The house is occupied by two colored families, who both have a number of non-union miners as boarders. This is the same mine where a man, a member of the United Mine Workers, recently attempted to assassinate Guard Holloman at night.

The authorities and operators are working on clues that promise to put the dynamite in the clutches of the law.

The Railroads and the Laboring Man.

It is announced in a most sensational way that the recent railroad consolidations will be followed by a wholesale discharge of laboring men, in an effort to reduce expenses one hundred millions.

Such statements need not excite alarm in any quarter. Thirty years ago, when the movement for the consolidation of shortlines into long and continuous lines began, the opponents of that most beneficent tendency declared that it meant hardship to the workmen and poorer facilities for the public.

The effect was contrary to that predicted. These new lines, having more at stake, had to meet public demands, and had, when possible, to avoid dissatisfaction among the men. The public has been better served, the workingmen have had better wages and more certain employment, and the capital invested has found its reward in the increase of traffic.

So will it be in the future. Economy is possible, doubtless, in certain directions, by the consolidation of local offices and certain terminal changes. But there must be expansion in other directions. The roads must develop traffic; they must encourage travel; they must therefore employ more men if they are to earn a fair return on the billions of capital invested.

The danger of loss of employment does not lie in the direction indicated, but in another altogether.

For ten years railroad building in Kentucky has been at a standstill. Adverse legislation and organized political raids and the cry of the demagogues—these have practically put a stop to railroad building in Kentucky. The roads already here have been improved, and they are falling into their natural relations with the great systems, but instead of 5,000 miles of railroads, all developing new mines and encouraging new facilities, we have just the mileage we had ten years ago.—Louisville Evening Post.

Charles Caldwell, of Temperance, has a mule seventeen hands high, which he can't sell, because it is too big for practical purposes.

The chronic borrower is certainly a promising individual.

MRS. ROBERT NOAKES

Sues For a Divorce From Col. Campbell's Star Witness.

Barbourville, Ky., Feb. 19.—Mrs. Robert Noakes (nee Rice), formerly of Artemus, Ky., today filed suit against Robert Noakes, asking for a divorce, and that she be restored to her maiden name.

Her husband was one of the star witnesses in the Goebel conspiracy trials at Georgetown. He is said to be out of the State now and his whereabouts unknown.

Mrs. Nation and the Press.

It seems to be Mrs. Nation's ambition to make a national wrecked.—Chicago Tribune.

Kansas should either license saloons or license some one to demolish them.—The Houston Post.

The rumor that Mrs. Nation is on the pay-roll of the glass trust is denied.—Minneapolis Times.

It is now up to Mr. Markham to write a poem about "The Woman with the Ax."—Buffalo Express.

Her platform is free and unlimited carriage without the aid or consent of an other Nation.—Chicago Tribune.

The herculean task of smashing the trusts might with great propriety be referred to Mrs. Nation.—St. Louis Globe-Democrat.

If Hoyt were writing a Kansas play one of the characters would certainly be Carrie Consternation.—Philadelphia Ledger.

It is presumed that some poor man in Kansas will be known to fame hereafter as "Mrs. Nation's husband."—Baltimore American.

Mrs. Nation evidently does not share the popular superstition regarding the "ill luck that follows the breaking of a mirror."—Poonia Herald-Transcript.

Mrs. Nation has declined to act in "Ten Nights in a Barroom," but she might possibly consent to be the star for one night in ten barrooms.—Chicago Record.

The Kansas saloon-keeper who has his fortune told in these troubled times will doubtless be informed that he must beware of a tall, dark woman with a brick in one hand.—Denver Republican.

CRAPE GAME KEEPER GETS TWO YEARS.

Louisville Gamblers Terror Stricken in Consequence.

Louisville, Ky., Feb. 16.—Frank Paul was convicted this afternoon in the Criminal Court for setting up and running a crape game. The jury fixed the fine at \$200 and gave him a penitentiary sentence of two years. This is the first time such a conviction has been recorded in this county for twenty years, and is the result of the vigorous war that has been waged against the gamblers in this city for the past four months. Paul was indicted by the December grand jury. His attorneys have tried every way to stay the trial, even trying to swear Judge Barker off the bench, but he refused to step down, and forced a trial this morning.

There are about thirty more similar indictments against gamblers to be tried next week. The conviction of Paul has almost caused a panic among the gaming fraternity.

The Queen Dowager of Italy intends to publish a biography of the late King Humbert, which will reveal the personal side of his history.

ROOSEVELT, TALKS.

About His Colorado Hunt and Says Those Were Awful Newspaper Yarns.

Gov. Roosevelt is out of the star witnesses in the Goebel and tells the truth of his hunt for big game in the Rockies. He was disgusted with the fairy stories sent out by long distance newspaper correspondents. He says: "No correspondent of any newspaper, no man who wrote or gave any information to any newspaper was within forty miles of where I was hunting at any time during the five weeks I was out. The sensational stories, such as those describing adventures with bears and wolves were deliberate and wilful fabrications and, I understand, were written by men who were not within hundreds of miles of where I was. We did not see a bear or wolf on the entire trip. Aside from lynx and smaller game our hunting was confined to hunting the so-called mountain lions or panthers. I got twelve of them. I never enjoyed a holiday more. I have never been out with a better hunter than John Goff. His hounds are without exception the best I have ever seen for the work."

Bill to Legalize Joint-Smashing in Indiana.

Indianapolis, Feb. 15.—A bill legalizing "joint-smashing" in Indiana made its appearance today in the Senate. The measure permits any crowd of people, not exceeding twelve, to "smash" any booth, boat or other place where liquor is illegally sold in Indiana, declaring such places to be public nuisances. It also provides that any one interfering with the "smashers" shall be punished for assault and battery, or assault with intent to kill. The bill was referred to the Temperance Committee. The measure makes it the duty of peace officers to attempt to abate such nuisances, but their failure is to be followed by the action of the "smashers," who are declared exempt from damages.

Substitute for Coal.

It is reported that a workman named Montag, in the Hemshof dye and soda factory, near Mannheim, Germany, has invented a substitute for coal which costs about 25 cents per 300 pounds to manufacture. The process is described by A. L. Frankenthal, United States Consul at Berne, in the Advance Sheets of Consular Reports, issued by the Government (January 29) as follows: "Peat is the basis, with the addition of certain chemicals which, up to the present, are the secret of the inventor. Parties who have seen the product but say that it gives a great heat, burns with a bright flame, and leaves no slag and only a small quantity of white ash. Certain Mannheim capitalists have tried to obtain the secret from the inventor by offering him a position as director in a company to be established, giving him a salary of \$4,000 and two percent of the net profits; but he has refused this offer, because he wants to control the sale of the product himself. Capitalists now claim that Montag asks too high a price. Mr. Gehrig, the secretary of the Mannheim Chamber of Commerce, has, it is said, undertaken to procure the necessary machinery to begin the manufacture of the article in partnership with the inventor. They have bought 25 acres of peat land and have bonded 125 more in the vicinity of Hachenheim, where they will erect the necessary buildings, large enough to keep several hundred men at work. It is figured that the daily output will be sixty tons. It is said that the peat is thoroughly dried, ground by a machine, mixed with the chemicals, and pressed into brick shape."

Lafayette who took the last photograph of Queen Victoria, in Dublin, with a sprig of shamrock in her bonnet has sold over 100,000 copies, and the demand is increasing.

Vermont has twelve living ex-Governors, while Indiana has none.

He Chose the Philippines.

The ignorance that exists among some classes about matters that every one with a vestige of intelligence should know is astonishing.

The other day a youth from the country called at the local recruiting station to enlist for the army.

"Now you can sign for service in either the Philippines or United States," said the officer. "Which do you prefer?"

"Whur is the United States?" asked the unsophisticated youth who seemed to have heard of the Philippines, but never of his own country.

The yokel was informed that he was now a citizen of the United States and lived there, and after recovering from this startling information he said he guessed he'd go to the Philippines. And there he probably is now.—Paducah Sun.

Local Option Election.

Morehead, Ky., Feb. 16.—The people of this community are greatly stirred up over the whisky problem, and steps are being taken to order an election for the entire county within sixty days.

The immediate cause of the crusade is the Morehead Normal College. The Woman's Christian Board of Missions has donated the college the sum of \$65,000 on the condition that no saloons are allowed in the town, and so the temperance people are making a vigorous fight to drive out the saloons.

A Card.

I desire to extend to my many customers my highest appreciation for their very liberal patronage during last year and wish to announce that I am better prepared this season to execute a larger amount of building with more promptness than ever before. Before letting your contracts this year give me a chance to make you an estimate on your work, as I will give you full value received and treat you right in every way. I don't ask for all the work that will be done here this season, but you will please remember that at all times I will be prepared to take "one more" contract. Wishing all a happy and prosperous year, I am, Yours very sincerely, M. McCord, Contractor and Builder, Telephone 5, Feb. 20, 1901.

Mrs. Chesley Williams Dead.

Mrs. Chesley Williams of Madisonville died early Monday morning, after a long illness. Some time ago she had a severe spell of fever which was supposed to have settled in her foot, where gangrene set in. The foot was amputated a little more than a week ago. The operation was very successful, and she was thought to be doing well until a few days ago, when the right foot became similarly affected and she grew rapidly worse until death relieved her sufferings. She leaves a husband and three children to mourn the loss of a true wife and a devoted mother.

Powder Ordinance.

The City Council of the City of Earlinton do ordain as follows: Section 1.—That from and after the passage of this ordinance, it shall be and the same is unlawful for any person, firm or corporation to store or keep any dynamite, or more than two kegs of gunpowder, or blasting powder, or like explosive, at any one time within any building, or in any annex to any building, or in any lot within the fire limits, as established and now existing in the said city.

Sec. 2.—Such use of the said dangerous or like explosive as shall be dangerous or likely to be dangerous and dangerous to the public safety.

Sec. 3.—Any person found guilty of a violation of the terms or spirit of this ordinance shall be fined \$10 for each day he or it so keeps said explosive contrary to the terms hereof, and no tricks or evasion shall be allowed to impede the enforcement of this ordinance.

NEBO NOTES.

Local and Personal Items Gathered by our Nebo Correspondent.

Nemo, Ky., Feb. 19.—Nothing of a startling nature has occurred since our last letter.

There are several cases of grip in this vicinity.

We were sorry to learn of the death of Uncle Billy Gill, who died last Saturday night and was buried Sunday with Masonic honors. Uncle Billy was one of our oldest citizens, and no better man, or one more generally beloved ever lived in Rose Creek neighborhood. He came to the neighborhood about forty-three years ago, and we feel safe in saying that during that time he never made an enemy. He was about eighty-one years of age, and leaves three children but no wife.

We regret to note the death of Mark Corbin, who died last week. He was about fifty-five years of age and leaves a wife and several children.

Doctor Kennedy spent several days in Nebo last week.

Mr. Alfred Roberts, of Madisonville, is visiting his brother, who is engaged in the tobacco business at this place.

Charley Birk and brother returned Monday from Owensboro, where they had gone to visit their father.

Brother Curry attended Mr. Corbin's funeral and remained over and attended prayer meeting.

Mr. Fisher, of Arkansas, spent several days in Nebo and vicinity last week. There seems to be some peculiar attraction in this part of the world for him.

Miss Goldie Chandler, who has been clerking for Eudaley and Morrow met with quite a painful accident Tuesday night. She overturned a kettle of boiling water, scalding her feet badly.

T. W. Chandler is at home with rheumatism.

Miss Belle Story will teach the spring school in Nebo, beginning March 4th. Miss Belle is an experienced teacher, and will doubtless have a large school.

A. E. Hill, of Manitou, attended services here Sunday.

Reid Tapp, of Manitou, worshipped in Nebo Sunday.

The Rutherford House gave a masquerade party Thursday night.

Mr. and Mrs. Lan Lutz, of Stanhope, visited in Nebo Sunday.

Miss Jennie Pike is visiting at Stanhope.

Mr. Burton, of the Corinth neighborhood, was in Nebo this week and reported his son, who has been sick so long with typhoid fever, as much better.

Bro. B. F. McMeen left his appointments at the C. P. church Saturday afternoon and Sunday morning and evening.

Cris Hoffman undertook to put a stack of fodder in his eye. The result was hard on the eye and he is suffering intensely.

Up to this time very little interest is manifested in the Democratic primary except by the candidates. In fact, they seem to be more interested in what the Republicans are going to do than anything else. For the information of all concerned we say, bring out your men, and in November we will show what we will do by electing the full county ticket. The Democrats give some good advice in regard to who will be our strongest men for candidate, but we doubt their sincerity.

RUSTICS.

Special Railroad Rates to Louisville.

The various railroads in the State have granted a rate of one and one-third fare, on the certificate plan, to delegates attending the Twentieth Annual State Convention of the Young Men's Christian Association of Kentucky. Delegates must pay full fare going, and must secure Certificate from the ticket agent when they purchase their tickets at starting point. These will be counter-signed by the Secretary of the Convention, and entitle the holders to secure a return ticket at one-third. Delegates unable to purchase through tickets to Louisville must secure certificates at each purchasing point.

COMPARED WITH EARLINGTON.

Sturgis Getting Warm Up Over the Liquor Traffic.

Bordley, Ky., Feb'y. 18.—Henry Hawes, who has been visiting relatives in this vicinity, returned to Madisonville Monday.

The O. V. College at Sturgis is said to be in a bad condition financially, but the attendance is good. The Democratic candidates for county officer spoke here Friday. Some of the candidates completely beshamed the characters of others in their own estimation.

Wm. Brady, a miner living near Sturgis, died Monday, after a two week's illness.

Chas. Schutter, of Davenport, Ia., one of the owners of the large stove mill at Sturgis, has been hustling around this week making arrangements for an extra large run this spring.

T. H. Stone, of the Herald, is making it hot for the whiskey interests of Sturgis. THE BEE correspondent had the misfortune to see some of the evils of the liquor traffic on a recent visit there. What a difference between that place and Earlinton!

The people of Sturgis are going to have a chance to knock out the murderous liquor fire in the near future.

We will soon give the readers of THE BEE a short history of Bordley.

FATAL FIGHT OF COLORED MEN.

Marshall Johnson Shoots Will Williams. Who Dies in a Few Hours.

Late last Thursday evening a shooting affray between Marshall Johnson and Will Williams resulted in the death of the latter a few hours later. Both were young colored men. After the shooting Johnson went toward home a d disappeared and has not been heard of since. The shooting occurred about five o'clock near the Lake, on Clark street. It was thought Johnson was wounded and a wild story was told that his body had been found in the woods, where he had died. This was proven groundless.

All the witnesses to the affair seem to agree that Williams invited the trouble, drew his revolver first and fired first. Only two shots were fired. Johnson's pistol is said to have hung in his pocket, delaying his shooting. The bullet entered Williams' face and passed upward behind the nose. The surgeons operated that night and took the ball out but could not save the wounded man.

The Freight Depot.

At a called meeting of the Earlinton City Council Tuesday night the petition of the Louisville & Nashville Railroad Co. was granted giving formal permission for the removal of the old depot to the north end of the square near the intersection of Railroad and Clark streets. Some time ago the owners of the building property signed a paper granting the railroad company the privilege of moving the old depot building to the point indicated and authorizing the city to deed a strip of ground to the railroad to be used for that purpose.

The deed of conveyance was made to the railroad company in accordance with the agreement signed between the railroad company and the abutting property owners. The petition above referred to was a matter of form to satisfy a point in the law and to perfect the former agreement and transfer.

The old depot is now being moved and will be in position in a few days. The teaming will be done from the north end of the freight depot and all unloading from cars on track into wagons will be done north of the depot. The elevated platform at the rear of the old depot is being taken away and the extension roof on the street side of the building is to be cut away so that the building will not intrude on the street, or be any nearer than possible to the abutting property owners.

The available military strength of Kansas, according to Secretary Root's report, is 100,000 men and the W. C. T. U.—Chicago Tribune.

Mrs. Nation's mode of burying the hatchet is more impressive than pleasant to those in whose property it is buried.—Philadelphia Ledger.

The number of cases of smallpox at Pikeville is said to be increasing.

SHORT LOCALS.

Rev. Mitchell will preach Sunday morning and night at Christian Church.

Messrs. G. W. Cavanaugh and J. L. Edwards, of Solvay, visited friends in Earlington Sunday.

Mrs. Mary Colbert has been confined to her bed several days, but is improving now.

STRAVING—From the butcher shop a half-grown, brindle cat. Finder will return to J. R. Dean and receive liberal reward (?)

Miss Louisa Stoddard entertained quite a number of her friends last Monday evening. Carams and other games were enjoyed by all who attended.

Mrs. Claude Robertson has been very low with typhoid fever, but is now thought to be improving.

Mr. and Mrs. W. J. Boyd visited their parents in N. B. Sunday. Miss Willie Winstead, who has been visiting here, accompanied them home.

Livestock has six mills and factories turning out rough and dressed lumber, table stock, buggy rims and spokes, chair stock and cooperage stuff.

WANTED—A good foreman who thoroughly understands raising results work and handling rough, blocks and tackle, crabs and dock-locks, etc., with promptness, safety and ability. Apply to

M. McComb.

Eloped to Evansville.

Mr. Otto O'Bryant and Miss Annie Shaw came to Earlington yesterday and boarded train No. 63 for Evansville, where they were married in the afternoon. The bride is the daughter of Mr. L. J. Shaw, living near Morton Gap, and has many friends. The groom is a energetic young man, a driver at Barnsley, and is doing well. Sadie Grasty, of Morton Gap, accompanied the happy couple to Evansville, which city now seems the most popular Gretna Green for Hopkins county couples. Mrs. Biss extends congratulations.

Helen Keller Promoted.

Cambridge, Mass., Feb. 15.—Helen Keller has again distinguished herself above all her fellow students. At Radcliffe College she has been promoted in the middle of her freshman year to a membership in an English course, which is open only to choice minds, in spite of the fact that she is deaf, dumb and blind.

George Dunn, of Magoffin county, age eighteen, accidentally shot and killed himself with a rifle.

The total taxable property of Nicholas county is \$3,457,380, exclusive of railroad property, \$96,000 more than last year.

STARVED

Slow growth of hair comes from lack of hair food. The hair has no life. It is starved. It keeps coming out, gets thinner and thinner, bald spots appear, then actual baldness.

The only good hair food you can buy is—

AR'S Hair Vigor

It feeds the roots, stops starvation, and the hair grows thick and long. It cures dandruff also. Keep a bottle of it on your dressing table.

It always restores color to faded or gray hair. Mind, we say "always."

\$1.00 a bottle. All druggists.

"I have found your Hair Vigor to be the best remedy I have ever tried for the hair. My hair was falling out very bad, and I thought I would try a bottle of it. I have used only one bottle, and my hair stopped falling out. It is now real thick and long."

MRS. KENNEDY MURDERED.

The Grand Jury at Kansas City Charge Her with Murder in the First Degree.

THERE MAY BE OTHER ARRESTS LATER.

The Tragedy drew out of Kennedy's Seeking the Arrest of Was He Declared was a Marriage Under Duress, His Life Having Been Threatened.

Kansas City, Mo., Feb. 16.—Mrs. Lulu-Princess Kennedy, who shot and killed her husband, Philip H. Kennedy, contracting agent of the Merchants Dispatch Co. in this city on January 16, was indicted by the grand jury for murder in the first degree.

The shooting was the culmination of a sensational wedding, which Kennedy had brought suit to have set aside, asserting it had been forced by the death of the dead man aided the father and brother in trying to prove that Kennedy was the victim of a conspiracy. The grand jury considered the indictment of the father and brother of the slain man, and the action in their cases. The prosecuting attorney will, however, it is stated, cause other arrests.

Mrs. Kennedy, who is 20 years old, called her husband from his office in the new building, in the center of the city and emptied four shots into his body, causing almost instant death. The couple were married in the district court on December 4. The father and brother accused that the bride and Kennedy's actions indicated he was not a willing party to the contract. In his suit to have the marriage set aside, Kennedy asserted that his life had been threatened if he refused to marry the woman. At the time of the shooting and that he was present in the building where the shooting took place, that he had struck the murdered man's brother who the latter tried to disarm Mrs. Kennedy. A physician testified that Mrs. Kennedy, who had come to him for medical advice, had told him, in November, that she was the wife of a man who had been killed by a Grand Rapids (Mich.) woman.

A BENGAL TIGER'S VICTIM.

Albert Nelson Fatally Mangled by a Bengal Tiger at the Indianapolis Zoo.

Indianapolis, Ind., Feb. 15.—Albert Nelson, aged 21 years, employed as a animal keeper at the Zoological garden in this city, was killed by a Bengal tiger. He entered the cage in which the tiger was kept, and was attacked by the beast. A terrible struggle followed, in which Nelson was torn in a hundred places. Red-hot iron was used to burn the tiger, but he was not until several bullets had been fired into its body. It is believed that the tiger was killed. Nelson was dragged from the cage more dead than alive and was hurried to the city hospital where he died as he was being carried in.

SCHLEY-SAMPSON JEALOUSY.

A Compromise Suggested Which May Permit of Confirmation.

Washington, Feb. 16.—Senator McComb is making an effort to secure a compromise which will permit confirmation of the president's nomination, advancing various offers of Admiral Sampson's fees for meritorious conduct during the Spanish war. He suggests that a 1st and Sampson and Behley be confirmed, and that Congress pass a resolution creating the grade of vice-admiral with an annual salary of \$10,000. The Spanish war was given the senior position by the president. Some opposition is made by supporters of Admiral Behley, who fear that he would not be given the senior position by the president.

MOTHER AND CHILD PERISHED.

St. John M. Roop and Her Eight-Year-Old Daughter Burned to Death in Ohio.

Cleveland, O., Feb. 15.—Mrs. John M. Roop and her eight-year-old daughter were burned to death in their home in Wayne township. The child was playing near the grate and her clothing caught fire. The mother attempted to extinguish the flames and her own clothing ignited and both perished. Mrs. Roop was 35 years old.

Shenandoah Bank Robbers Sentenced.

Shenandoah, O., Feb. 15.—John Day, Robert M. Haley and James H. Hagan, the Shenandoah bank robbers, were sentenced by Judge Stowell to terms of four to six years and the other two to ten years in the pen. Day pleaded guilty.

Death of Gilbert A. Pierce.

Chicago, Feb. 16.—Gilbert A. Pierce, formerly United States senator from N. Y., died at his home at 1835, terrace, at 11 o'clock. He was 61 years of age and had been in the Lexington hotel, after a long illness.

The Great Waldersee on Fire.

Oakeshaw, Feb. 15.—The Hamburg steamer "Great Waldersee" was burned to a cinder.

ROOSEVELT AND THE LIONS.

The Cats Will Have Reason to Rejoice Over Teddy's Departure from Colorado.

Meeker, Col., Feb. 17.—Col. Roosevelt and John Goff rode into Meeker from the Keystone ranch Friday afternoon. When asked for interview, the governor referred the correspondent to Mr. Goff.

Mr. Goff said that 17 lions were killed during the hunt, and that the governor himself killed 12, four of which he killed with his knife and a .38 rifle. Mr. Goff further stated that Gov. Roosevelt, on Friday, killed the largest lion that has been killed in this section, weighing 37 pounds and measuring 50 feet in the flesh. Mr. Goff stated that Roosevelt killed it with his knife.

One of the most exciting experiences of the hunt occurred during Thursday night, when Gov. Roosevelt killed with his rifle his second to largest lion. In order to get a shot at the lion, Roosevelt had to be carried in a large party of his men. He was relieved, will proceed overland to Virgin and there resume command of the district of northern Arizona, commanded for over a year by Maj.-Gen. S. B. M. Young.

License Revenue in Manila.

Capit. Storer, of the Thirty-sixth United States volunteer infantry, has been appointed collector of licenses for the city of Manila, to succeed Lieut. Bishop. The collection from licenses in Manila alone amount to \$300,000 dollars a year. The members of the national party are preparing to celebrate Washington's birthday on a grand scale.

Gold in Northern Luzon.

Reports from the gold mining district of northern Luzon are lately more encouraging. A find of \$250,000 gold was recently made in a single pocket of the mountain, about 17 miles north of Manila.

Mass Deportations.

Another party of the insurgents will be sent to the island of Guam. Many of the discouraged insurgents in the provinces are coming in individually and surrendering their guns.

Illario Rialo, the alleged ringleader in the Macabebe outrages, has been arrested by the government and is being held in the Philippine prison. He is a prominent leader of the democratic party of that state and was once nominated for congress. He leaves a widow, Mrs. Julia Phillips, and two children, a son and a daughter, and a sister. The funeral will probably take place Tuesday.

MACARTHUR'S RECEPTION.

A Social Function Exceeding Anything Known During the Spanish Regime.

Manila, Feb. 20.—Gen. MacArthur's reception at Malacanang exceeds anything in the Spanish regime. The palace was beautifully decorated and brilliantly illuminated. Thousands of persons attended from the army, navy, official, consular, clerical, business and social circles. American and foreign. The Philippine population was well represented. Gen. Barry was master of ceremonies.

Gen. MacArthur and the ladies of the United States commission received the guests. The reception lasted until 11 o'clock. There was dancing afterward. The affair was thoroughly enjoyable, and the Philippines were especially pleased at being accorded a privilege never before afforded them. Gen. MacArthur's tact and courtesy were generally appreciated.

DE WET MOVING NORTHWARD.

Lord Kitchener, However, Expects Him to Reach the Coast and Be Ready for Him.

London, Feb. 20.—Lord Kitchener, commander-in-chief of the British in South Africa, telegraphing from Pretoria to the war office, under date of February 18, says: "De Wet is reported still moving north, and now is west of Hopetown. He probably will double back to the southwest."

Ives and Harbor Appropriations.

Washington, Feb. 23.—The senate committee on commerce yesterday completed its calculations showing the effect of its amendments to the Ives and Harbor bill. According to this showing the aggregate appropriation recommended by the committee, covering both immediate payments and continuing contracts, is \$70,884,156. This is a reduction of \$9,708,884. Of this total reduction \$1,000,000 is on the appropriations for the next fiscal year, and \$8,708,884 on those on continuing contracts.

The United States Steel Co.

New York, Feb. 20.—The papers for the incorporation of the United States Steel Co. it was reported yesterday, were sent to Trenton, N. J., yesterday afternoon. The amount of the capitalization and the proportion allocated to each subsidiary company was left blank.

A Brave Little Girl.

Fort Wayne, Ind., Feb. 20.—Beale's daughter, aged 15 years, shot and probably fatally injured her father to save her mother from death at the hands of a burglar. The little girl was taken to the police station, and after an inquiry was let go.

CONFERENCE.

The Philippines Commission Perfecting Plans for Increased Efficiency in Auditor's Office.

GEN. DAVIS TO BE PROVOST OF MANILA.

Licenses in Manila Bringing in a Good Revenue—Members of the Federal Party to Celebrate Washington's Birthday—Gold Mines in Northern Luzon.

Manila, Feb. 20.—At a conference held between the United States Philippine commission and W. L. Lawrie, the new auditor for the Philippines in Manila, it was decided to establish an office and perfect plans for increased efficiency in the auditor's department.

Brig.-Gen. George W. Davis will shortly take up the duties of provost marshal of Manila, succeeding Brig.-Gen. A. Franklin Hill, who, as soon as relieved, will proceed overland to Virgin and there resume command of the district of northern Luzon, commanded for over a year by Maj.-Gen. S. B. M. Young.

Illario Rialo, the alleged ringleader in the Macabebe outrages, has been arrested by the government and is being held in the Philippine prison. He is a prominent leader of the democratic party of that state and was once nominated for congress. He leaves a widow, Mrs. Julia Phillips, and two children, a son and a daughter, and a sister. The funeral will probably take place Tuesday.

MACARTHUR'S RECEPTION.

A Social Function Exceeding Anything Known During the Spanish Regime.

Manila, Feb. 20.—Gen. MacArthur's reception at Malacanang exceeds anything in the Spanish regime. The palace was beautifully decorated and brilliantly illuminated. Thousands of persons attended from the army, navy, official, consular, clerical, business and social circles. American and foreign. The Philippine population was well represented. Gen. Barry was master of ceremonies.

Gen. MacArthur and the ladies of the United States commission received the guests. The reception lasted until 11 o'clock. There was dancing afterward. The affair was thoroughly enjoyable, and the Philippines were especially pleased at being accorded a privilege never before afforded them. Gen. MacArthur's tact and courtesy were generally appreciated.

DE WET MOVING NORTHWARD.

Lord Kitchener, However, Expects Him to Reach the Coast and Be Ready for Him.

London, Feb. 20.—Lord Kitchener, commander-in-chief of the British in South Africa, telegraphing from Pretoria to the war office, under date of February 18, says: "De Wet is reported still moving north, and now is west of Hopetown. He probably will double back to the southwest."

Ives and Harbor Appropriations.

Washington, Feb. 23.—The senate committee on commerce yesterday completed its calculations showing the effect of its amendments to the Ives and Harbor bill. According to this showing the aggregate appropriation recommended by the committee, covering both immediate payments and continuing contracts, is \$70,884,156. This is a reduction of \$9,708,884. Of this total reduction \$1,000,000 is on the appropriations for the next fiscal year, and \$8,708,884 on those on continuing contracts.

The United States Steel Co.

New York, Feb. 20.—The papers for the incorporation of the United States Steel Co. it was reported yesterday, were sent to Trenton, N. J., yesterday afternoon. The amount of the capitalization and the proportion allocated to each subsidiary company was left blank.

A Brave Little Girl.

Fort Wayne, Ind., Feb. 20.—Beale's daughter, aged 15 years, shot and probably fatally injured her father to save her mother from death at the hands of a burglar. The little girl was taken to the police station, and after an inquiry was let go.

ANNOUNCEMENTS.

COUNTY CLERK.

GILLILAND, We are authorized to announce John R. Gilliland, of Bates Springs, Post office, a dress St. Charles, a candidate for County Clerk, subject to the action of the Republican party.

In pardoning pugilist Chas. Slusher, who was convicted by jury for an assault at the polls on Dr. D. T. Smith, an elderly citizen of Louisville, who was carrying out the orders of the court by serving certain notices on officers of the election, Gov. Beckham takes occasion to criticize the court in the following language:

"I am convinced that this was a case of political persecution; that the man was resisting at the direction of an officer the service of a void order granted by the Law and Equity Court of Jefferson county, and he has been the selected victim of persecution upon the part of those who were responsible for the outrage committed in the election of 1890 in the city of Louisville. Pardon granted."

PRESIDENT J. C. OSGOOD of the Colorado Fuel & Iron Company has some decided views about the United Mine Workers and the officials of that organization. We quote the Denver Republican:

"That there might be no mistake as to his exact meaning, Mr. Osgood has re-written his estimate of the president of the miners organization and of its objects. After calling Mr. Mitchell a greater tyrant and autocrat than the czar of Russia, he added: 'No selfish and cold blooded employer ever exacted the blind obedience, absolute surrender of independence or contributions of hard won earnings that he and his organization exact from his dupes. No slavery can be worse than the slavery which a organization imposes on its members. No tyranny can be greater than the tyranny with which he attempts to force all mine workers, whether willingly or not, to join and contribute to his organization; nor more cruel than the treatment which his organization metes out to men who refuse to join and be robbed by it.'"

We are unalterably opposed to this organization. We will not knowingly employ any body of men belonging to it, and if we cannot get men to operate our mines outside of its ranks we will close them down."

Good Cooking and Temperance.

The following editorial in the Chicago Record upon the very intimate connection between good cooking and temperance may explain in part the prevailing habit of temperance among Earlington men who have good thrifty wives and daughters, most of whom know how to set before their men well prepared and appetizing food, bought in the Earlington markets where all the good things of earth are to be had.

Those who are interested in the promotion of the temperance movement and the abatement of the pernicious saloon influence hardly attach too much weight to the opinion expressed by Jacob Rills, of New York, in a recent speech before a local women's club. Mr. Rills, whose study of the social problems of cities makes him an authority on the subject, asserts that much of the evil of drunkenness would be abated were men generally better fed and the art of good cooking more generally understood. There could be no more potent enemy of the saloon, he points out, than a reform which would insure every man sufficient and properly prepared food in his own home.

Mr. Rills' opinion is supported by many of the most thoughtful students of the temperance problem. Whatever tends to health and contentment in the home life is counted as a sure agency against drinking. To a greater extent, and

more directly, the element of individual health, as affected by cookery, plays its part. The poorly nourished man, whose health is impaired by badly prepared food, is the man who first feels the need of some artificial stimulus to keep him going. Good food would fortify him against the temptation to drink and keep him from feeling that some artificial aid is necessary in steadying his nerves and stimulating his powers of endurance. The number of cases of Intemperance due directly to the evils of bad cooking is large, but the number of those indirectly traceable to it as a cause of general weakness and ill health must be enormous.

The general adoption of a policy for the promotion of good cookery would do more to abate the saloon evil than any other one of the methods now proposed or practiced. The well-managed cook stove is a more potent weapon than any number of hatchets in the hands of misguided zealots. The various organizations now engaged in the good fight against alcoholism could do no better than to act upon Mr. Rills' suggestion and devote part of their energies assiduously to the promotion of the art of cooking in households throughout the land.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boesche, a celebrated German Physician, and is acknowledged to be one of the most potent remedies in Medicine. It quickly cures Coughs, Colds and Lung troubles of the severest nature, removing the phlegm and the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapid and successful sale every season confirms. Two bottles sold solidly and annually. Boesche's German Syrup was introduced in the United States in 1888, and is now sold in every civilized village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. Get Green's Price Almanac.

Pneumonia Can Be Prevented.

This disease always results from a cold or an attack of the grip, and may be prevented by the timely use of Chamberlain's Cough Remedy. That remedy was first used during the epidemics of the grippe of the past few years, and not a single case has ever been traced to pneumonia, which shows it to be a certain preventive of this dangerous disease. Chamberlain's Cough Remedy has gained a world-wide reputation for its cures of colds and coughs. For sale by Dr. Bernard drug store, Earlington, Va.; Best, Roberts, Morton & Co., King St., Chicago.

Why should one go to the expense of employing mechanically and fertilizing his land artificially when clover will do this at a minimum of cost?

When a fire starts on the steppes or prairies of Russia, all the people are required by law to turn out and fight the fire without compensation.

Replying to an inquiry, we say that there is no cholera proof breed of hogs, at one time it was thought there might be, but we all know better now.

Good apples retail in the London market for from 10 to 15 cents per pound. Here a farmer puts five or six barrels of good apples in his cellar and tells his kids to go in.

A writer in one of our poultry papers claims that the eggs of pure blooded fowls are better flavored than those of common stock. This is not so. It is the food and not the breed which determines the flavor of the egg.

Two or three counties in the state of Illinois raise 25,000 tons of the 30,000 tons of broom corn used annually in this country. The men who have been engaged in producing this crop the past two years can start banks and live in brownstone fronts.

In the year 1806 a church situated in northwestern Iowa bought 1000 bushels of corn for 10 cents a bushel to use as fuel to warm the edifice through the winter. Pound for pound it made as much heat as soft coal and cost one-third less. This will never occur again.

We know of a few men who have saved a few acres of the original timber grown on their farms and are doing some forestry work on a sensible plan. These timber tracts are carefully thinned and trimmed each year, and these natural groves are the most attractive things to be seen on their farms.

We saw a lot of six-year-old apple trees the other day which the rabbits had gnawed up on a sensible plan. These timber tracts are carefully thinned and trimmed each year, and these natural groves are the most attractive things to be seen on their farms.

The Russian apples very clearly have a great deal of utility in all that border territory where apples of the American type will not grow. We have good reports of these Russian apples from Manitoba and believe that their introduction has extended the apple growing territory of the country 200 or 300 miles north of where it was supposed to end.

When a man can turn out a steer calf and not only have it grow to maturity, but fit itself to sell as choice beef in the stock markets without feeding it a mouthful of hay or grain, as is done in Montana, such a producer has an immense advantage over his brother of the corn states who must put \$20 worth of food and care into a \$50 steer to fit him for market.

We have been eating lately Wealthy apples held in cold storage, and, comparing them with King apples grown in New York, the Wealthy is the better apple. Inasmuch as the Wealthy can be raised in unlimited quantity all through southern Minnesota and northern Iowa it would seem as though the problem of a winter fruit for that section was happily solved.

The washing and leakage from the barnyard should be utilized. Instead of letting it run to waste to befoul the streams, such a producer has an immense advantage over his brother of the corn states who must put \$20 worth of food and care into a \$50 steer to fit him for market.

The older the sow becomes in the maternity business the better work she will do. A pig from a 6-year-old sow is worth one-half more than one from a year old sow. Never mind if the litter iron does get to weigh 500 or 600 pounds. If she will raise two or three litters of ten pigs a year, she is the most profitable breeding animal you have on the farm. Never figure up what she will bring you to sell for port.

We confess that we do not understand the value of a government crop report such as that for November, 1900, which credits Vermont, Wisconsin and Minnesota with an average crop of corn for the year of 40 bushels per acre and a quality of crop of 94 and 96 respectively, when it credits Iowa, the greatest corn state in the Union, with an average crop of only 28 bushels per acre and quality of only 88. That report is not correct. The paper it is printed on.

Prevention

better than cure. Tutt's Liver Pills will not only cure, but if taken in time will prevent Sick Headache, dyspepsia, biliousness, malaria, constipation, jaundice, torpid liver and kindred diseases.

TUTT'S Liver PILLS ABSOLUTELY CURE.

TRAFFIC IN CHOLERA BCGS.

We have a request from one of our readers that we say something about the traffic in cholera bogs. We might say that we approve this business, but we would not look well in print and then hardly do the subject justice. Wherever cholera is found there will be found the human hyena who would violate the law of his state and seek to make money out of the carrion. In most states the law demands that sick bogs shall be quarantined and dead ones be buried or burned up. Instead we find a barbarian sneaking around after dark, where cholera bogs are to be found, paying a dollar or so a head for them and what does he do with them? Well, some of the sick bogs are as a result of a rough ride across the country, and they go to Chicago as fine western hogs, while the rest, both dead and dying, may or may not appear later in some form of food product. This flend violates the law, spreads the fatal disease and better deserves hanging than our colored brothers down south. And the man who for a few dollars will sell this barbarian his sick and dying and dead bogs is every whit as rotten as the man who buys them. It is indeed a curious thing that while a man would be heavily fined in any community for maliciously shooting one of his neighbor's hogs, he is not even fined for selling his nefarious business unmolested. It is a public and patriotic duty to swear out an information and prosecute any man known to be engaged in this business.

THE CRAZE FOR LAND.

As anticipated, following the cheapness and abundance of money there has sprung up a craze for land manifest in the greatly increased value of all improved farms in the fertile sections of the west and ad sections of the central west. Land is selling today for \$15 and \$20 per acre in many portions of this desirable territory on the strength of a crop, the product of annual rainfall for 1900, where, taking a series of ten years, only one or two good crops are at all possible. We wish to repeat here what we have heretofore called attention to—i. e., that wherever the buffalo grass is native to the soil there is a great deal of land entirely unsafe to attempt to till the soil for ordinary crops. This grass is a lightning rod danger signal to all that where this grass grows the earth should not be plowed. While such lands may be made very profitable for stock raising, there is little but calamity and disappointment in store for the raiser of cereal crops and, grange, the simple reason being that the rainfall is insufficient to mature such crops and that the fastest promise of a crop is liable to be wrecked in a day by the hot breath of the scorching sun from the Arizona and New Mexico deserts. In the selection of land bear these facts in mind.

TREES AND BAD ROADS.

At a recent horticultural meeting a true enthusiast advocated the planting of rows of trees as closely as possible along all the country highways throughout the prairie region of the northwest. While it seems too bad check enthusiasm in so good a cause as that of tree planting, the fact must not be overlooked that such a method of road cure would undoubtedly interfere with the good roads problem, the trees so planted making a catchall for the sweeping snow drifted in winter and their shade preventing the drying of them in the summer. In a western country where the planting of willows on each side of the public highway was gone into on a very extensive scale some years ago necessity has compelled the removal of every tree, as they made the roads impassable both in winter and in summer. Trees set

A GOOD EXAMPLE.

It is a pleasure to note the growing tendency of the railway corporations toward improving the appearance of their depot grounds and in timber culture. The Northwestern road in the matter of lawn and formal development of station grounds on its main line west from Chicago is doing a fine work, not only setting a good example for all its owners, but catering to a love of the artistic and beautiful, which greatly needs encouraging. The Kansas City and Fort Scott railway is building greenhouses in connection with its depot buildings, from which a daily supply of all flowers is supplied the dining and parlor cars of its line, while the Santa Fe road has gone extensively into timber culture on some of its Kansas lands, a forest of 1,200 acres of cawlings planted some 15 years ago now being of the estimated value of \$100,000, thus demonstrating in a very practical manner the possibilities of timber culture in the prairie regions of the west.

WORKS IN THE CORNFIELDS.

All over the central west women have helped to gather the great corn crop this year. It has not been a question of whether they should be allowed to do this sort of work. They simply had to or else have the crop wasted. A good many nice girls have earned from \$1 to \$2 a day doing this work and have built themselves up physically, with no impairment of their womanly refinement. And yet a certain man whom we know who lets his wife milk the cows, feed the pigs and part of the time chop her own wood for the kitchen stove said a man had no business letting his wife work out in the field this way. Men are queer critters, anyway.

Rev. T. N. Compton, formerly of Hopkins county, but who for some years past has been making his home in the South, where he has gained the reputation of an evangelist of remarkable ability, is now assisting the pastor of the Baptist church at Henderson in a revival, which bids fair to be one of the greatest ever held in that city.

Services were held at the M. E. Church, South, the Missionary Baptist and the General Baptist churches Sunday morning and evening by the pastors. All of the churches had fair-sized congregations.

Miss Florence Clark led the Christian Endeavor Sunday evening. A large number of Endeavorers and visitors was present.

The Valentine Party and Box Lunch given at the Public School was a success in every particular. A number of comic valentines were represented by the older pupils of the school, and the costumes were fine. Miss Georgia Wyatt and Ed Barnett received the prize for the best costume, the former representing "An Old Maid" and the latter "An Umbrella Mender." A neat sum was realized, which was used in purchasing some school supplies.

The Earlington Dramatic Club will present "Among the Breakers" at the City Hall at St. Charles next Saturday night, February 23. St. Charles is noted for her hospitality, and the people are preparing to give the Club a royal welcome.

The Gus Sun Minstrels showed to a good house in Earlington Thursday night. Some fine music was rendered and new and catchy songs were sung, and all present enjoyed a rare treat. It was perhaps the best minstrel that ever showed in Earlington.

Mr. Dick Beasley and son, Walter, of North Carolina, left for home this morning after a visit to the family of J. R. Dean, of this city, and other relatives in Hopkins county. Mr. Beasley is a cousin of Mr. Dean's and this is the first time they have met in thirty years, so, of course, there was considerable rejoicing.

Kidney disease is the enemy we fear most as a result of the feverish restlessness of our much vaunted modern civilization. It is a treacherous enemy, working out its deadly effects in the most insidious manner. The first indication of changes in the urine, frequent headaches, digestive troubles, shivering, the signal for prompt remedial measures. Prickly Ash Bitters is a kidney remedy of superlative merit. It is soothing, healing and strengthening, quickly relieves the aching or soreness that always accompanies the advanced stages, checks the progress of the disease, and through its excellent cleansing and regulating effect in the stomach, liver and bowels, it brings back the strength and ruddy glow of vigorous health. Mark L. Corban.

In the death of Brother Mark L. Corban, which occurred at his home N. Nebo, Ky., Feb. 13, 1901, the county of Hopkins lost one of its best citizens, the Methodist Episcopal Church, South, one of its most consecrated christian members, the family of Brother Corban an ever watchful, loving and patient counselor.

Brother Corban was loved by all who knew him, and esteemed most highly by all who knew him best. Together with his bereaved family we sympathize and thank God for the beautiful life He inspired Brother Corban to live.

No earthly sympathy can ease the sorrowing hearts, but such as we have and the comfort it brings, we extend to those who are left behind to live without him until God will make them a united family on the other shore.

Mark L. Corban was born in Wayne County, Tenn., Nov. 15, 1846; moved to Hopkins County, Ky., 1870; was married to Mary S. Cates, Nebo, Ky., Dec. 11, 1872, and settled near Nebo. To this couple were born seven children, all, except one, with the mother live to mourn their loss. He made a profession of religion at Rose Creek church in 1883 and joined the Methodist Episcopal Church, South at Nebo, and lived a consistent life as a christian, the remainder of his life. He loved his church, his fellowman, and his God supremely. He accumulated a reasonable portion of this world's goods of which he gave liberally to the cause of Christ. His home was ever open to entertain the ministers.

He died of pneumonia February 13th at 6 o'clock in the morning, happy in a Saviour's love, ready to go, and only regretting that he must be parted from his wife and children whom he loved so dearly.

His funeral was preached February 15th at 12 o'clock by his pastor, in Bethany church and his remains were quietly laid to rest in Rose Creek cemetery, there to await the final reuniting of soul and body.

A very large congregation gathered to confirm the eulogies pronounced and pay their last tribute of respect to the one who had been a benefactor in the community, county and church.

May God bless and comfort the bereaved family and make them an unbroken family in the world above.

THE PASTOR.

THE PRETABLE RESULT.

The Joint-Smashing Business in Kansas Has Finally Resulted in Murder.

THE VICTIM A SALONKEEPER'S WIFE.

The Murderer One of a Gang of Forty Masked Men Who Started to Wreck a Joint at Milwood—Four Arrests Made and Others Will be Taken In.

Leavenworth, Kas., Feb. 20.—Mrs. Rose Hudson, wife of John Hudson a bartender at Milwood, 14 miles north of here, was shot and instantly killed, Monday night, during a raid upon Mrs. Lochner's saloon.

Hudson Had Been Warned.

Hudson had been warned to close his saloon, but refused. About ten o'clock three men entered the place and called for drinks. When served they rapped on the counter and gave a signal. Hudson jumped from behind the bar and grabbed one of the men. In the scuffle a shot was fired and the man carried was wounded. The contents entering the wall. Mrs. Hudson, attracted by the noise, ran screaming into the room, while a mob of 40 men, most of whom were masked entered in answer to the signal.

The Fatal Shot Fired.

In the melee that followed, Mrs. Hudson was shot in the head by a shotgun, the top of her head being blown off. William Webb, one of the raiders, was shot in the shoulder by a revolver. Nearly a hundred shots were fired. Hudson carried his dying wife into an adjoining room, and the mob retired without wrecking the joint.

Sheriff Beward, who went to Milwood, has secured four prisoners two of whom are John and Henry Wilson, young farmers. Others implicated will be arrested. There were 40 women in the mob, it being composed of farmers, all in disguise.

TO CALL A MASS MEETING.

Wichita (Kas.) Ministerial Association Take Action.

Wichita, Kas., Feb. 20.—At a meeting of the Ministerial association held in Wichita, Monday evening, it was resolved to call a mass meeting at the Auditorium, next Sunday afternoon. The following resolution was adopted:

"Resolved, That the Ministerial association of Wichita issue a call for a mass meeting of the temperance-loving people of the city, to be held Sunday afternoon, February 24, at 3:30 o'clock, to determine what action should be taken for the immediate withdrawal of the saloons from our midst."

OPPOSED TO PROHIBITION.

A Wichita Minister Who Declines to Endorse.

Wichita, Kas., Feb. 20.—Rev. J. D. Ritchey, of the Episcopal church, president of the Ministerial association, did not attend the meeting, but has come out in an interview as opposed to prohibition. He says the saloon is so deeply grounded in American life that it is part of our social system. A large number of the people make it their club. Regulation is the best that can be done with the saloon problem.

WICHITA'S BUSINESS MEN.

They Will Meet and Take Steps to Prevent Lawlessness.

Wichita, Kas., Feb. 20.—A mass meeting of business men, called for next Friday, Feb. 21, at 10 o'clock, for the purpose of taking such steps as will prevent any lawlessness or mob violence in our city. Every business man who is interested in the welfare of Wichita is earnestly requested to be present.

THE HATCHETT BRIGADE.

The Joint-Smashing War Breaks Out in a New Place.

Kansas City, Mo., Feb. 20.—A special to the Times from Newman, Kas. says:

A band of 50 men and women, armed with hatchets and axes, made an effective raid on a joint here yesterday. Some of the crusaders came from Perry and Thompsonville. The building in which the "joint" was kept was locked, and the point of forced entrance of the reformers, who broke upon broke in the door. They completely demolished a costly cherry bar, a plate glass mirror and other fixtures. There was not much liquor in the place, but it was destroyed.

A friend of the pointist tried to protect the property with a shotgun. One of the crusaders named Garrell, in trying to get possession of the gun was struck on the head with it, and seriously injured.

To Fight the San Jose Scale.

Port Clinton, Feb. 20.—Sixty peach growers of Catawba Island have formed a combination to fight the San Jose scale, which has been destroying peach orchards in this country. The association will spray the trees with crude oil exclusively.

Committed for Extradition.

London, Feb. 20.—Sigmund Hertz, of New York, who has been under arrest here for some time past charged with forgery, was yesterday committed for extradition to the United States.

ST. LOUIS WORLD'S FAIR.

The Bill Appropriating Five Millions Passed by the House of Representatives.

THE VOTE RECEIVED WITH APPLAUSE.

The Bill Was Passed, Under Suspension of the Rules, by a Vote of 101 to 41. Some of the Opposition Coming From the Older States of the South.

Washington, Feb. 19.—This was suspension day in the house. The local committee from St. Louis who are here pushing the St. Louis exposition bill were in the gallery in anticipation of action upon the bill in the course of the day. A delegation from the W. C. T. U., who are interested in having the bill amended so as to provide for the closing of the exposition on Sunday and to prohibit the sale of liquor on the grounds, also were in the gallery to watch the fight.

Immediately after the reading of the journal Mr. Tawney (Main), chairman of the special committee on the Louisiana Purchase exposition, moved the passage under suspension of the rules of the bill appropriating \$5,000,000 for the exposition.

A second war trunk was ordered. This action allowed 20 minutes debate upon a side. Before the debate began, Mr. Lattimore (S. C.) asked unanimous consent to offer (to Charleston, S. C., position bill) as an amendment, but Mr. Hopkins (Ill.) objected.

Mr. Tawney dilated upon the great and overshadowing importance of the event which this proposed exposition was to celebrate, calling attention to the fact that all of the exhibitions held in this country congress had authorized but two—the Centennial celebration at Philadelphia and the exposition at Chicago to commemorate the discovery of America. Congress, he said, had only provided for its own exhibit at other exhibitions. The magnitude of the event to be celebrated at St. Louis made it proper that congress should authorize it.

Mr. Maddox, (Tenn.) opposed the bill. He said he did not imagine his opposition would avail.

"It ought not to be," cried Mr. Tawney "in view of the contrast we made at the last session."

"I want to talk about other contracts just as binding," replied Mr. Maddox, who proceeded to recall "that manner in which Mr. Cannon, chairman of the appropriation committee, was fighting honest claims."

Moreover, he said, there were to be no public buildings authorized by this appropriation on account of the great expenditures. The \$5,000,000 which congress would give to a private enterprise by this bill, he said, would build fifty necessary public buildings.

He was anxious, he said, to see when the "watchdog of the treasury," Mr. Cannon, stood upon this bill.

Mr. Sims (Tenn.), who followed Mr. Maddox, taunted Mr. Cannon with lighting honest claims of a few hundred dollars and then remaining guileless when such a bill as the sending one was before the house.

He declared that Mr. Cannon, if he could over his influence, would defeat this measure. Mr. Sims declared that no exposition "will be justifiable as it would be a democratic act, congress not to vote for the pending measure."

Mr. Cannon said he had consistently and honestly opposed the legislation. He agreed that exposition matters had run wild. But this bill was now upon a footing where it could not be discarded. He had opposed the paragraph in the sundry civil bill at the last session. It had been placed upon the bill by Senator Cockrell, a democrat in the senate. He had opposed it with a voice and vote, but it became a law. St. Louis had complied with its part and the government was obligated to comply also. He should, therefore, vote for the pending bill.

The rules were suspended and the bill passed by a vote of 194 to 41. The result was received with applause.

ST. LOUIS DOUBLE TRAGEDY.

Charles Bent Became Suspicious of His Wife, Murdered, Her and Committed Suicide.

St. Louis, Feb. 19.—Believing that his pretty young wife was untrue to him and being tired of life, Charles Bent, a prominent lawyer, shot and killed himself with a bullet from the same revolver at 8:15 Monday morning.

The double tragedy occurred in the rooming house conducted by Bent's sister, Mrs. Helen Louise Williams. There were no witnesses to the shooting.

Must Comply With Original Demands.

Feldin, Feb. 19.—The foreign envoys have held a conference regarding the Chinese reply concerning the punting of the guilty persons named by the powers. The reply was considered unsatisfactory and the envoys decided to insist upon a compliance with their original demands.

The Grip Has Him.

Wichita, Kas., Feb. 19.—Col. M. M. Burdick, postmaster and editor of the Wichita Eagle, is very ill in his home. He has been ill for ten days with the grip, and complications have appeared.

MANITOWA APPLES.

The following list of apples were successfully fruited this year in the province of Manitoba: Blenheim Gravenstein, Gravenstein, Gravenstein No. 1, Ribston, Ribston Malenka, Libby, Ortruff and Roma of the Russian varieties and Wealthy, Peerless and Paton's Greening of American varieties. The Cheney and Wyant plums also bore good crops.

WHEN TO SPRAY.

The clash between the bees and the orchard men can be easily avoided if only a little common sense is used. It is definitely settled by the best authorities that so far as the orchard is concerned it is not best to spray when the trees are in full bloom, and this is just the time when spraying would kill the bees, which in the pursuit of food are just then doing their most helpful work in securing a perfect fertilization of the blossoms.

Spraying before the buds open and again after the fruit is well set gives best results as regards the fruit and at the same time spare the bees.

HOW WE WOULD PLANT AN APPLE ORCHARD.

If the writer wanted to plant an apple orchard in Iowa, Minnesota, Wisconsin, northern Illinois or South Dakota, he would first select a variety of Virginia crab where the trees were to grow in the orchard. The next year he would cut the top of the crab off and graft with such varieties as he wished to grow, not hesitating at all to use partly those choice varieties which on their own roots would be utter failures. On these crab trunks would go Wealthy, Utter's Red, Longfield, Tallman's Sweet, Seek No Further, Northern Greening, Golden Russet and a score of others. The weak point in an apple tree in the territory referred to is in the roots and in the trunk of the tree. This defect can be largely overcome by using the absolutely ironclad crab for roots and trunk. This is not a lengthy item, but if you will heed it is worth good money to you if you want to grow apples in the northwest.

JUST LEARN.

Now, here is a queer case: A farmer whom we know, engaged in the stock business upon a very extensive scale, having a thousand head of cattle and never less than 500 hogs on his farm, has never lost a hog by cholera notwithstanding the disease in a malignant form for several years past.

It may be said that his turn will come some day, but inasmuch as he has enjoyed success for so long, it is not worth good money to you if you want to grow apples in the northwest.

He certainly violates a reasonable law by keeping so large a number of hogs continuously on his farm and would naturally be selected as the first man to lose by the ravages of this disease, but his hogs are always well. Such cases as this completely upset all the theories advanced as to the cause of this disease. It is not a hog, but a man, who is the cause of his hogs are the product of his cornfields and scavengers of the steer yard. It is not preventives used, for his hogs are never doped. What is it, then? Just his budding luck, that's all.

Things We Know About Heaven.

Heaven belongs to the unclean. It belongs to the spiritual, and therefore, cannot be fully known as long as we are in the material. It belongs to the perfectly holy, and, therefore, much of what might be known cannot be received or comprehended, for the natural man cannot know things of the Spirit of God, for they are spiritually discerned. No one returns to tell his experience or describe to us what he has seen. Angels' feet are always upon the ladder going from us to God and returning to minister to us, but they minister in silence. We hear no voice as they serve. There are many questions we would like to ask, many questions we do not ask, but neither by the written word nor by vision in the night is any answer given. Heaven lies beyond the domain of the present life, and we must wait until we come into the fullness of the Spirit, until we enter the higher sphere of being, before we can know or comprehend its realities and glories and blessings. Such knowledge is as yet too wonderful for us. It is high; we cannot attain it.—United Presbyterian.

Squibs From the Globe-Democrat.
The strong arm of the law can not wield a hatchet like an infuriated woman.
For President and Vice President on a George Washington platform: Gen. Weyler and Mrs. Nation.

Vice President Roosevelt is the very soul of fairness. He is already discounting those mountain lion stories.

Tired of being snubbed and snubbed, Mr. Astor threatens to secede from London to swear eternal allegiance to Paris.

Tue to their national characteristic, the officers of the French army in China want to parley with Count von Waldrese.

The man who is introducing Col. Bryan as "the next President of the United States" could better favor the public by introducing "the next Senator from Nebraska."

Hoke Smith declares that the South never believed in free silver, which is probably true, but for years it has been addicted to the bad habit of voting on that side.

A clever financier has discovered a way by which China can pay \$600,000,000 indemnity. Probably he means to extract it from Li Hung Chang's private bank account.

King Edward VII. will prove himself to be the wisest ruler of his time if he shall succeed in devising a satisfactory plan by which his people can pay their war taxes.

How to Cure the Grip.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip not one case has ever been reported that did not recover. For sale by St. Bernard drug store, Earlinton; Ben T. Robinson, Morion's Gap; Geo. King, St. Charles.

Coinage of 1900.

The coinage of 1900 was in excess of that in any previous year in the history of the Mint, aggregating \$141,301,900, as compared with \$136,856,676 in the last fiscal year. The value of the gold coinage was slightly below that of the previous year, \$107,087,110, as compared with \$108,177,180. The coinage of silver dollars was \$18,254,984, as compared with \$18,254,709 in the previous year. The total deposits of gold were not so great as in the previous year, the imports of bullion showing a decline, but the deposits of domestic bullion again surpassed all records.—Commercial and Financial World.

Rev. A. Radish Melton.

Hopkinsville, Ky., February 18.—Rev. Meredith Melton, for over sixty years a minister of the Methodist Church, died at Crofton last night of gripple, aged 85 years. He was a native of Alabama, but came to Kentucky in his youth. He had for years been drawing a pension, having served and been injured in the Indian wars out West over forty years ago.

Relieves and cures La Grippe.

Congressman Henry C. Smith, Michigan, has introduced a bill to provide for the appointment of a national commission, to be composed of six representative railroad men, to be selected by the railroads, and six business men, to be selected by the large patrons of the railroads, which commission is to have power to regulate all freight charges and issue all traffic for the government of railroad rates, says the Railway Review. The duties imposed upon this commission are such as to appeal any one but a congressman. If the gentleman in question wants to obtain a little light on the subject he might examine the tariff files of the interstate commerce commission. The necessary force to compile and issue the publications of such a board would constitute one of the largest in the city of Washington, if, indeed, it would not be the largest anywhere in government employ.

With so much literature on the subject, it is astonishing that men of average intelligence will continue to introduce such absurd measures, and thereby consume legislative time that might otherwise be devoted to the consideration of more profitable, as well as much needed, measures.

DOWN IN THE MINES.

(Continued from Second page.)

science makes cowards of men and an illustration of the truth of this saying was given last week when a short distance in the rear of the big gun when he is with the gang in the presence of the bar-keeper, was enroute home from Madisonville, and while walking down the track he was accosted by a friend in a short distance in the rear, and having a horror for guards and thinking the voice was that of one, he started a trot, and the fellow behind, seeing his frightened condition, called upon him to halt; but the agitator was not ready to pass in his cheeks, and thinking his time had come if he should fall into the hands of the guard, quickened his pace and the faster he ran the more he was pursued by his follower, who, at last, none other than a miner. At last a creek was reached and even there the fellow scarcely slowed up, but jumped on a crossing log and at once fell headlong into the sulphur water. He was alone up, however, before he reached home, or a neighbor's in an almost fainting condition. When asked where he got the mud on his clothing he says he went on a coal hunt a few days ago and fell into a creek, but the truth is that a "coon" was running him.

LOCKED IN HOPEKA JAIL.

Mrs. Nation and Companions Still Occupy the Hospital Ward of the Hopeka Jail.

MRS. NATION WAITING FOR MAGAZINES.

The Case Against the Prisoners, Being of a Criminal Nature, Will Have to be Tried by a Jury—A Change of Venue Has Been Applied For.

Hopeka, Kas., Feb. 20.—Mrs. Carrie Nation and her two companions, Mrs. Christ and Miss Madeline Southard, still confined in the county jail. Mrs. Nation stoutly persists that she will not give a \$50,000 bond to keep the peace, and will remain in jail. The other two women are undecided, but it is thought will secure bonds in a day or two. They occupy the hospital ward at the jail, a large bare room 25 by 40 feet. The furnishings are not different from those of the other cells except that comfortable beds have been provided. There are also two tables for writing, and Mrs. Nation has improvised a cupboard. There has been a constant stream of visitors to the cell, and Tuesday afternoon Mrs. Nation sent down word that she was not to be disturbed.

Writing for Magazines.

Mrs. Nation receives a large number of letters and telegrams daily. She spends the greater part of her time in writing. She has received large orders for articles from two eastern magazines, and has been spending most of her time preparing them. She will receive \$25 for one, and has already received a check for \$20 for the other. The articles will be about 1,000 words in length.

The Case Against the Crusaders.

The cases against the Nation crusaders for malicious destruction of property at Murphy's place, Sunday morning, will be held in the district court. It is a criminal charge, and will be tried by a jury. The defendants are Mrs. Nation, Mrs. Christ, Miss Southard, C. K. McWhorter and Dr. E. H. Harding. They will probably be tried separately. Mrs. Nation will look after her own case.

Other Defendants Have Secured Counsel.

The other defendants have secured counsel. The cases were to have come up in the morning, but the attorneys for the defense asked for a continuance until 1:30 p. m. in order that an application for change of venue might be prepared. The change of venue will probably be refused.

THE NATION CASE AT WICHITA.

A Motion to Quash the Information Denied by Judge Dale.

Wichita, Kas., Feb. 20.—Mrs. Nation's attorney presented a motion in the district court to quash the information against his client on the ground that the building injured harbored a nuisance, and that his client had a right to abate it.

In denying the motion Judge D. M. Dale ruled that it makes no difference whether the property destroyed is used for a saloon, a bank or a grocery store.

Under this ruling the only point at issue is whether the accused broke the glass windows as alleged in the complaint.

The complaint in one case is made by the owner of the building, who was not the proprietor of the saloon.

THE MAYOR IS UNHAPPY.

He May Not Be a Friend of the Nation.

Wichita, Kas., Feb. 20.—At a meeting of the W. C. T. U. Tuesday evening, a large committee was chosen to wait upon Mayor Finlay Ross. They called upon his honor and asked him what he intended to do about closing the saloons. He told them he was powerless.

They passed a resolution that the saloons must go, although before deciding on further action they concluded to await the result of a mass meeting called by the ministers for next Sunday.

In the meantime the call for the business men's meeting to check violence has been largely signed.

THINGS UP AT WINFIELD.

The City Marshal, However, Has a Possess to Preserve Order.

Wichita, Kas., Feb. 20.—A special to the Beacon from Winfield, Kas., says: At noon was the time given jointists to remove their fixtures from the city. They refused to do so. The city marshal has armed 100 deputies under instructions to preserve order and prevent destruction of property at all hazards.

Rudens Swore Out Warrants.

Kansas City, Mo., Feb. 20.—A special to the Star from Leavenworth, Kas., says: John Hudson, the bartender whose wife was killed in Tuesday's saloon raid at Millwood, came to Leavenworth and swore out warrants for the four farmers under arrest here charging them with murder in the first degree.

Classed as Public Nuisances.

Wichita, Kas., Feb. 20.—The house passed Senator Hurrell's bill relating to the sale of intoxicating liquors, and it was sent to Gov. Stanley for his signature. The bill classifies as a public nuisance all places where liquor is sold illegally.

PHILIPPINES COMMERCE.

Figures Showing the Rapid and Substantial Increase of Trade With the Islands.

Washington, Feb. 17.—The division of insular affairs of the war department has made public statistics showing the commerce of the Philippines for the seven months ended July 31, 1900. The total value of merchandise, gold and silver, imported into the islands during the period named, was \$13,000,554, an increase of \$2,000,000, or over 10 per cent, compared with 1900.

The total exports from the Philippines to all countries combined, amounted in value to \$15,000,000, an increase of 24 per cent over 1900. The trade with the United States was: Imports from this country, \$1,000,000; exports, \$1,500,000. These latter figures as compared with the preceding year indicate a gain of over 18 per cent in the imports, and a material decrease in the exports.

COL. PETER S. MICHE DEAD.

He was Professor of Natural and Experimental Philosophy at West Point.

West Point, N. Y., Feb. 17.—Col. Peter S. Michie, professor of the department of Natural and Experimental Philosophy at the United States military academy, died after a short illness of pneumonia. He was 70 years old and had been on duty here as professor since 1871. He graduated from the military academy in 1852 and stood second in his class. He entered the corps of engineers and served in the operations against Charles Fort in 1863 and 1864. He is survived by his widow and a daughter. One son, the late Lieut. Dennis M. Michie, was killed in the battle of San Juan hill and in less than a year afterwards his only remaining son died from pneumonia.

PROTESTS FROM DE WETS MEN

Object to Indiscriminate Flogging—Decide to Fight Indecently.

London, Feb. 19.—A correspondent of the Daily Mail, who is with the British column pursuing Gen. De Wet says: "Gen. De Wet has failed to reach his objective, having been headed off in tangle from Struyensburg and Hope town, respectively 28 and 55 miles from the scene of Friday's fight."

Last night a meeting of burghers was held in Gen. De Wet's camp to protest against the indiscriminate flogging of men, and half the force threatened to surrender. Eventually the malcontents decided to fight independently."

For a Monument to Senator Davis. St. Paul, Minn., Feb. 16.—Senator Hurlbut introduced a bill in the legislature appropriating \$10,000 for a statue of the late United States Senator Cushman Kellogg Davis to be placed in Statuary hall in the national capital at Washington.

Models for Officers and Men.

Washington, Feb. 16.—The house committee on naval affairs yesterday reported favorably the senate joint resolution giving bronze medals to the officers and men of the North Atlantic squadron participating in the battle of Santiago bay.

SALT RHEUM CURED BY Johnston's Sarsaparilla

QUART BOTTLES.

JUST KEEN IN TIME.

What this Sarsaparilla is a Warning of Something More Serious to Come. The Only Safe Way is to Read the Warning. Johnston's Sarsaparilla is the Most Powerful Blood Purifier Known.

Nature, in her efforts to correct mistakes, which mistakes have come from careless living, or it may be from ancestors, shoots out pimples, blotches and other imperfections on the skin, as a warning that more serious troubles (such as tumors, cancers, erysipelas or pulmonary diseases) are certain to follow if you neglect to heed the warning and correct the mistakes. Many a lingering, painful disease and many an early death has been avoided simply because these notes of warning have been heeded and the blood kept pure by a right use of JOHNSTON'S SARSAPARILLA.

Miss Abbie J. Bando, of Marshall, Mich., writes:

"I was cured of a bad humor after suffering with it for five years. The doctors and my friends said it was salt rheum. It came out on my head, neck and ears, and then on my whole body. I was perfectly raw with it. What I did, I tried every medicine that was advertised to cure it. I spent money enough to buy a house. I heard JOHNSTON'S SARSAPARILLA highly praised. I tried a bottle of it. I began to improve right away, and when I had finished the third bottle I was completely cured. I have never had a touch of it since. I never got any thing to do me the least good till I tried JOHNSTON'S SARSAPARILLA. I would heartily advise all who are suffering from humors or skin diseases of any kind to try it at once. I had also a good deal of stomach trouble, and was run down and miserable, but JOHNSTON'S SARSAPARILLA made me all right."

The blood is your life and if you keep it pure and strong you can positively resist disease or face contagion fearlessly. JOHNSTON'S SARSAPARILLA never allows of a relapse. It is for sale by all druggists, in full quart bottles at only one dollar each.
